

The Caldwell Canadian Value Momentum Fund (“CCVMF”) employs a rigorous and repeatable investment process based on the combination of quantitative discovery and traditional, bottom-up fundamental analysis. The end result is a portfolio containing the best attributes of value and momentum.

### KEY FEATURES

- Concentrated, high-conviction portfolio consisting of 15-25 stocks that are vastly different from traditional Canadian Equity funds, which predominately employ large-cap strategies that closely track the index.
  - Portfolio has historically emphasized small and mid-cap companies undergoing a positive re-rating by the market.
- Seeks to capitalize on investment opportunities offering the most attractive risk-adjusted return potential, regardless of market cap and industry categorization.
- Benchmark and style agnostic - the fund invests across the market-cap spectrum.
- Positioned to invest in companies that may be overlooked or not accessible to larger mandates.
- Low correlation to the S&P/TSX Composite Index.
- A top Active Share\* score of 98.4% relative to other Canadian equity fund managers.

THOUGHTFUL INVESTING

The information contained in this document is designed to provide general information related to investment alternatives and strategies and is not intended to be investment or any other advice applicable to the circumstances of individual investors. We strongly recommend you to consult with a financial advisor prior to making any investment decisions. Unless otherwise specified, information in this document is provided as of the date of first publication and will not be updated. All information herein is qualified in its entirety by the disclosure found in the CCVMF's most recently filed simplified prospectus. Information contained in this document has been obtained from sources we believe to be reliable, but we do not guarantee its accuracy. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing in this product. Unless otherwise indicated, rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Mutual funds are not guaranteed; their values change frequently and past performance may not be repeated. The CCVMF is a publicly offered mutual fund that offers its securities pursuant to a simplified prospectus dated July 20, 2017. The CCVMF was not a reporting issuer prior to that date and formerly offered its securities privately as follows: Series F and Series I since March 28, 2014 and Series O since August 8, 2011. The expenses of the CCVMF would have been higher during the period prior to becoming a reporting issuer had the fund been subject to the additional regulatory requirements applicable to a reporting issuer. Inception Date: August 8, 2011. Principal distributor: Caldwell Securities Ltd.
